

September 26, 2013â€œThe serial communication included with Inventor HSM Edit requires a physical and properly functioning RS232 serial port on your ... computer in order to communicate with the application. If your serial port is not functioning properly, you will not be able to communicate with the application. We do not support installation of the software for use with other physical devices. If you are using devices other than serial ports, please note the following reasons why some devices may not communicate with the application Why can't I open the Inventor.ini file?
