I read in this forum there was someone who had asked about how to add a picture to email. Well I will be the lucky person who will be able to answer that. The person I am helping had asked me to send her pictures of her kids to her. She asked me about how to add a picture to email. Well this is what I told her. So first I will have her in a very simple mail box. 1. Click on the top left corner of the box. This will open the menu. 2. Select the green arrow and click it. 3. This opens the menu. 4. Choose file and click it. 5. Click the folder where the pictures are kept. 6. Click the arrow and it will take you to the image you want to add to the mail. 7. Drag the image to the box on your mail box and it will be ready to send out. Well like I said above, I will be the lucky person who will be able to tell you if this is how I did it. Hope I helped. If there is anyone out there who knows how to do it I would be grateful if you would reply to me.Article content VANCOUVER — The Canadian Automobile Dealers Association is praising the B.C. government’s decision to ban the sale of gas-powered vehicles in British Columbia. “The government has listened to their constituents and taken action to make the most significant change in the province’s vehicle sales laws in almost 30 years,” said CADA president Rick Casson in a statement.
